PROFESSIONAL SUMMARY

Front-end Developer with 2+ years of commercial experience in building high-load Single Page Applications (SPA), optimizing UI performance, and integrating with backend systems. Deep knowledge of JavaScript, TypeScript, React, Next.js, Vue.js, Redux Toolkit, Zustand, HTML5, and CSS3. Experienced in performance optimization, SEO improvement, RESTful API integration, CI/CD pipelines, unit testing, and cross-functional collaboration. Results-oriented, able to work effectively within Agile/Scrum teams.

KEY SKILLS

- Front-end Development: React, Vue.js, Next.js, Redux Toolkit, Zustand, JavaScript, TypeScript, HTML5, CSS3
- Code Optimization: CI/CD, code review, application performance, SEO improvement
- Backend Integration: RESTful API, PostgreSQL, interaction with server technologies
- UI/UX: Responsive layout, TailwindCSS, Material UI, Radix UI, Figma, UX design
- Testing: Jest, Storybook, Postman, unit testing, E2E testing

WORK EXPERIENCE

WebDad LLC (Aug 2024 – Jun 2025)

Front-end Developer | Full-stack (Golang + Vue.js)

- Developed and maintained high-load SPA applications using Vue.js, React, Next.js, and TypeScript.
- Improved page load speed by 25% through SSR and code splitting.
- Designed and implemented interactive forms with data validation, error handling, and UX improvements.
- Integrated RESTful APIs (Go backend) and ensured secure data transmission.
- Implemented CI/CD pipelines for automated testing and deployment.
- Developed a Telegram bot for a real estate agency and integrated it with the admin panel.
- Reduced bugs by 40% via code review and refactoring.

Roug Arts LLC (May 2024 – Jul 2024, project-based)

Front-end Developer (Telegram Game App)

- Built adaptive and responsive layouts based on Figma designs.
- Optimized and refactored code, reducing error rate by 40%.

IT-incubator (Nov 2023 – Apr 2024)

Front-end Intern ([Flash cards](#), [Instagram](#) projects)

- Developed dynamic fields and autocomplete to improve user experience.
- Optimized routing, resulting in 20% faster page transitions.
- Participated in unit testing and support (Jest, Storybook).

Relotech Solution (Jun 2023 – Dec 2023)

Front-end Intern ([Relocate](#) project)

- Reduced resource load by 30% through code optimization.
- Integrated RESTful APIs for data management.
- Conducted manual and automated testing.

EDUCATION

IT-INCUBATOR (2023): React, Redux, TypeScript (certificate)

Educational Center "Lider" (2022): HTML, CSS, JavaScript (certificate)

Belarusian State Polytechnic Academy: Engineer (graduated with honors)

CERTIFICATES

- freeCodeCamp: [Front End Development Libraries](#)
- freeCodeCamp: [JavaScript Algorithms and Data Structures](#)
- freeCodeCamp: [Responsive Web Design](#)
- IT-INCUBATOR: [Front-end React Junior+ Developer Certificate](#)

LANGUAGES

- Russian – Native
- English – B1 (in progress)

SOFT SKILLS

- Adaptability – quick to learn new technologies and workflows
- Communication – effective collaboration with development teams and clients
- Problem-solving – ability to find non-trivial solutions to complex tasks
